Starring: Kunal Sharma, Gurpreet Ghuggi, Aman Dharampal, Divya Dutta, Kajal Raghwani. Made in India - Shabaree. New Horizon New Horizon may refer to: New Horizons (spacecraft), a space mission launched in 2006 New Horizon (magazine), a literary magazine published by the Association of Writers and Writing Programs New Horizons (album), a 2000 album by the band Rift New Horizons (novel), a 1977 novel by John Varley New Horizon Records, a record label See also New Horizons for Students with Disabilities New Horizon High School (disambiguation)The present invention relates generally to a receiver used in wireless communication systems, and more particularly, to a receiver that can accurately and efficiently perform frame synchronization. A block diagram of a receiver 100 is shown in FIG. 1. An antenna 102 receives a modulated RF signal and outputs a received RF signal. A radio frequency (RF) amplifier 104 amplifies the RF signal. A band pass filter 106 passes the RF signal and removes high-frequency components of the RF signal. A mixer 108 mixes a local oscillation signal LO and the RF signal to output an intermediate frequency (IF) signal. A low pass filter 110 extracts the IF signal from the mixer 108. A detector 112 detects the IF signal and outputs a baseband signal. An anti-aliasing filter 114 removes high-frequency components from the baseband signal. A phase locked loop (PLL) 116 controls the local oscillation signal LO. A VCO (variable frequency oscillator) 118 outputs a sampling clock, which is a reference clock for a digital-to-analog converter (DAC) 120. The digital-to-analog converter 120 samples the baseband signal at the sampling clock output from the phase locked loop 116 to output a baseband signal samples. A demodulator 122 demodulates the baseband signal samples and outputs demodulated data. A decoder 124 decodes the demodulated data to output demodulated data samples. The VCO 118, the phase locked loop 116, and the demodulator 122 are a down converter. The phase locked loop 116 and the demodulator 122 are an analog-to-digital converter (ADC). The anti-aliasing filter 114 is an analog filter. The demodulator 122 includes a parallel-serial converter. In order to receive a 82157476af
