About This Content

In summer 1937, renewed tensions between Japan and China escalate into open war: The Second Sino-Japanese war has begun.

Order of Battle: WWII comes back to the Pacific Theatre, covering one of the cruellest but most underrated conflicts of the Second World War period.

In Order of Battle: Morning Sun you take control over the Japanese forces fighting for territorial expansion and rich Chinese resources. The conflict soon turns into a massive all-out war between the two sides during the Battle of Shanghai. While the Chinese forces are numerically superior, they have suffered from internal conflict and are poorly equipped with outdated weapons. The recently modernised Japanese Army on the other hand is well trained and experienced, but as the war drags on it gets increasingly overstretched, allowing the enemy to regain the initiative at several occasions...

New units

Japanese armies have been reinforced with several new units including biplane fighters and bombers such as the Ki-10, D1A and A4N1, the Sōkō Sagyō Ki flamethrower-equipped engineering vehicle and Type 89 medium tanks. The Chinese rely heavily on foreign arms deals, resulting in a diverse arsenal made up from Soviet Polikarpov fighters, Tupolev bombers and T-26 tanks, German Panzer I's, Sdkfz 221/222 armoured cars and 37mm PaK guns, Italian L3/33 tankettes, British Gloster Gladiators and many more. Nations now also have access to Cavalry units and Horse Transportation for towed guns. In total, almost 100 new unit types have been added to the game.

Scenarios

Beiping-Tianjin

I didn't enjoy this puzzle game as much as I did the others I've played.. its really good. This game is surprisingly good, it could literally be a good game without the nudity and weird sexual stuff. Could be decent Bejeweled clone, but no leaderboards, no achievements. You must activate the key, then register. But servers are down they say.. 10/10 i cant say anything else. Very ambitious concept with an attempt to demonstrate what cinematic VR films can be like. Good camera work, lighting and overall atmosphere. But notable its weakest link was in the many opportunities missed in expressing emotion in the characters facial animation. Early scenes suffered from feet clipping into the ground as well. A good soundtrack but again voice acting felt a bit lack lustre. I felt moments that were meant to have strong impact did not resonate with me because of the voice acting and facial animation. Overall I enjoyed it and would like to see more of this content in the future.

Great game, playing in which you can just relax, great voice and music. The game is very simplified, so that the nerves will soon be in good condition.. I couldn't even play the multiplayer mode because it requires specifically an XBox controller. If you don't own one, don't even try.. Not good yet but almost there!. 1:1 port of the original NES classics all in one pack with MOUSE SUPPORT. Everything is intact, including music. Can adjust resolution, comes with nice little borders to keep with the theme of which game you're playing (all in 8-bit too, and pretty faithful!). It's got cute filters too if you're into that.

If you're into these kinds of games, highly recommend this pack.

For me, literally what I've been waiting years to come out. Thank you so much for making this. Iunno what you got planned for Volume II, but I'll definitely keep an eye out for it.. This is sad, the reviews about the game are mixed just because it isn't popular ;-; You don't have to be intelligent to know that if the game is good, but it isn't popular then you shouldn't give a bad review. I bet that 100% of bad reviews are made by someone who never tried to make a multiplayer game. It's very hard and this game looks amazing!

If you didn't buy this game I recomand you this game, only if you buy it with friends who you can play with you!. As much as I want more fighting games on Steam, this port is atrocious. It has resolution problems, binding controllers is a hassle, and it crashes to desktop quite frequently. A bit annoying to be mid combo only to be greeted with your steam library.

. graphics

+ music

- easy

- bugs in lvl 12

- achievements not works. Great indie puzzle game. Scratched my head countless of times only to be followed by those "Ah ha!" face-palm moments. The puzzles only get harder as you go, and they keep you guessing because no two are alike. It's definately creative and different. Graphics and audio not the beez knees, but beyond expectation for a puzzle game, especially at this price point.. Holy crap! Galaxy Trucker!

It's a port of the mobile version, but that's not a complaint. I freaking love that game.

With the mouse controls being more accurate, I definitely prefer the PC version over mobile.

So stoked this came out, been looking for a PC version for ages.. Not what I expected at all. Too boring for me, and too short.
